**EXPERIENCE:**

**Jan 2007 –Present:** Pulse Telecom, LLC. Fort Lauderdale, FL.  
*Contracted CFO.*

**Sept 2006 –Present:** MGM Consulting Group, LLC, Louisville, KY.  
*Managing Director.* In this position I fulfill the CFO position for seven businesses that find more economical to hire MGM CG to take care of all their financial, accounting, cash management and HR functions.

**2003-2006:** NECC Telecom, Inc. Jeffersonville, IN.  
*Chief Financial Officer.* Even from the legal standpoint I was CFO/Treasurer from the inception of NECC, in 2003 I start using this title outside the telecom compliance and regulations context. As CFO I make sure that we are in compliance with all the FCC, PUC and other regulatory entities, I make sure that the money NECC spends are use in the best interest of the company, I take care of our financing needs (so far just in secondary capital markets). As a routine, I watch the cash flows and intervene when there is the risk to run into cash flow problems. In addition, I negotiate the best terms available with our vendors and I take legal decisions using the advice of our general counsel.

**2001-2003** NECC Telecom, Inc. Jeffersonville, IN.  
Accounts payable, Graphic design, Marketing coordinator, Website development, Tele selling, Customer service rep, HR; Like in any start-up, everybody does everything. However above are listed the main responsibilities I had at that time. Even I was new in the American business environment I was fortunate enough to meet people willing and able to work with me, to help me learn and fulfill my duties.

**2001 (02 – 07)** INFRATIREA, Oradea, Romania.  
Counselor in management and marketing matters. This company was bought from the Romanian government by an American investor and I was hired to change the way that company was run. In that period, I was able to work with the General Manager of the company and to help him to implement new rules and policies. For example, we started ISO 9000 implementation; we introduced procedures for TQM in our effort to improve quality of the final product.

**1999- 2001** EUROPEAN DRINKS, Oradea, Romania.  
Operations Research Analyst. I was in charge in analyzing the data, providing reports and ways to optimize transportations costs for the company's auto fleet (about 700 trucks). With the help of MS Excel and MS Access, I was able to provide a full analysis report that required in 320 person-hours in just 32 person-hours.

**1998- 1999** CONSART, Timisoara, Romania.  
Field Civil Engineer. I was in charge with supervision and quality control of construction workers. The largest team I had was 65 workers.

**TARIFF FORMAT**

A. Sheet Numbering: Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between pages 11 and 12 would be page 11.1.

B. Sheet Revision Numbers: Revision numbers also appear in the upper right corner of each sheet where applicable. These numbers are used to indicate the most current page version on file with the Commission. For example, 4th Revised Sheet 13 cancels 3rd Revised Sheet 13. Consult the Check Sheet for the sheets currently in effect.

C. Paragraph Numbering Sequence: There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

- 2.
- 2.1
- 2.1.1
- 2.1.1.A
- 2.1.1.A.1
- 2.1.1.A.1.(a)
- 2.1.1.A.1.(a).I
- 2.1.1.A.1.(a).I.(i)
- 2.1.1.A.1.(a).I.(i).(1)

D. Check Sheets: When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the sheets contained in the tariff, with a cross reference to the current Revision Number. When new sheets are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (\*). There will be no other symbols used on this sheet if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some sheets). The tariff user should refer to the latest Check Sheet to find out if a particular sheet is the most current on Commission file.

**SECTION 3 - DESCRIPTION OF SERVICE****3.1 Computation of Charges**

- 3.1.1 The total charge for each completed call may be a variable measured charge dependent on the duration, distance and time of day of the call. The total charge for each completed call may also be dependent only on the duration of the call, i.e. a statewide flat rate per minute charge. The variable measured charge is specified as a rate per minute which is applied to each minute. All calls are measured in increments as set forth in the Rates Section of this tariff. Fractions of a billing increment are rounded up to a full billing increment on a per call basis. Fractions of a cent per minute are rounded up to a full cent on a per call basis.
- 3.1.2 Where mileage bands appear in a rate table, rates for all calls are based upon the airline distance between the originating and terminating points of the call, as determined by the vertical and horizontal coordinates associated with the exchange (the area code and three digit central office code) associated with the originating and terminating telephone numbers. If the Customer obtains access to the Company's network by a dedicated access circuit, that circuit will be assigned an exchange for rating purposes based upon the Customer's main telephone number at the location where the dedicated access circuit terminates. The vertical and horizontal (V & H) coordinates for each exchange and the airline distance between them will be determined according to industry standards.

- 3.1.3 Timing begins when the called station is answered and two way communication is possible, as determined by standard industry methods generally in use for ascertaining answer, including hardware answer supervision in which the local telephone company sends a signal to the switch or the software utilizing audio tone detection. Recognition of answer supervision is the responsibility of the Underlying Carrier. Timing for each call ends when either party hangs up. The Company will not bill for uncompleted calls.

### **3.2 Customer Complaints and/or Billing Disputes**

1451 W. Cypress Creek Road, Suite 300  
Ft. Lauderdale, Florida 33309  
Customer Service: (800) 816-4734

Any objection to billed charges should be reported promptly to the Company. Adjustments to Customers' bills shall be made to the extent that records are available and/or circumstances exist which reasonably indicate that such charges are not in accordance with approved rates or that an adjustment may otherwise be appropriate. Where overbilling of a subscriber occurs, due either to Company or subscriber error, no liability exists which will require the Company to pay any interest, dividend or other compensation on the amount overbilled; provided, however, in the event that the Company has willfully overcharged any Customer, the Company shall refund the difference, plus interest, as prescribed by the Commission.
